

Statement by WFWP USA at Jamestown, Virginia

Good morning, dear brothers and sisters,

At this historic location, representing women, mothers, daughters, we commemorate and honor all those who came over in ships against their will, especially thinking of the mothers and children. We cannot really imagine what mothers must have felt when their children disappeared in Africa and they never saw them again, and also when they were taken from them after they arrived on these shores.

Mothers of all races at all times have always born the greater burdens of their families in times of wars, strife, hate, prejudice, etc. Therefore, when brother George Floyd was murdered, women and mothers of WFWP of all races felt moved to immediately come together in prayer, offering heartfelt and tearful prayers of repentance, forgiveness and healing, prayers for peace.

Our Founder Dr Hak Ja Han Moon, the Mother of Peace, always taught us to not live by the Logic of Power but by the Logic of Love.

Dr. Sun Myung Moon, her late husband, when asked whom he would consider to be the greatest hero in American history, immediately answered: Dr. Martin Luther King Jr, who also promoted the philosophy of non-violence and whose vision was in line with Gods' vision for America. We would therefore also like to thank him and honor him on this day.

Representing WFWP USA, women of all races and age groups we commit ourselves today, in partnership with God, and with our husbands and men, to love, uplift, nurture and educate all people as children of the Divine God who indeed are all precious and equal in His sight, until a community of love and peace is established here in America.

May the sacrifice of George Floyd not have been in vain, and be the catalyst for this change to come about.
